

# ISTP

## *“The Craftsman”*

*ISTP = I See The Problem*

ISTP's excel at analyzing situations to reach the heart of a problem so that they can swiftly implement a functional repair, making them ideally suited to the field of engineering.

ISTP's are often capable of humorously insightful observations about the world around them.

ISTP's may sometimes seem to act without regard for procedures, directions, protocol, or even their own safety. But while their approach may seem haphazard, it is in fact based on a broad store of knowledge developed over time.
